Owner's Comments

This Saver 330 WA (Walk Around) has undergone a completely new hull design, offering high performance capabilities, both in terms of achievable speed with the maximum installed power, namely a pair of outboard engines. -board of 300 HP each, and exceptional navigation comfort. It offers ample exterior spaces for daytime activities, with a large cockpit equipped with a sink, storage compartments below and the possibility of adding an additional refrigerator in addition to that in the cabin and a second cooktop . The aft section features an "L" shaped sofa with modern backrests and a table which, by simply replacing the supports, quickly transforms the dining area or living room into a secondary sun lounge. The bow, for its part, offers a large fixed sunbathing area with chaise longue style backrests. The console is proportionate to the size of the hull and offers space for the most modern and complete on-board instrumentation. The space can be completely covered by a rigid T-Top, equipped with LED lights (including colored), providing protection to the pilot and co-pilot. A single two-seater bench seat, with a raised seat for standing driving, is provided for the pilot. But it is inside that the 330 WA reserves the biggest surprises, with a significant cabin height, a spacious forward berth/dinette and a second bed for guests towards the rear. The main kitchen area includes a refrigerator, Corian countertop, sink, two burners and a standard microwave. The separate toilet compartment is also innovative, with a sliding door (less bulky) and separate WC and sink compartments divided by an interior door. This hull can easily reach speeds of 40 knots with its 600 horsepower at the stern. A WA that will accompany you on your excursions as well as on your short or long cruises in complete autonomy and in the greatest comfort for you and your guests.
