Divers

Comments : Imagine, the simple fact of slightly touching the leather covered bar makes it shudder. Admire his wake, he reveals the powerful and sailor spirit of this boat. The pleasure is also made of security on the Sun Odyssey 54DS, thanks to its ultra-resistant bridge equipment and its most efficient navigation equipment. In the cockpit, your crew evolves easily in a space where all the maneuvers are centralized.

This unit built by the Jeanneau site is a luxurious, comfortable and dynamic yacht. At first glance, we were struck and seduced by the elegance of its design which invites both relaxation and performance. It will be a pleasure to navigate the Sun Odyssey 54 DS, which the Jeanneau site has carefully designed and built to offer boaters a subtle mixture of safety, power and comfort. Everything is really simple to pilot this large ocean boat which includes a dedicated navigation space with two steering stations, a friendly and comfortable space around the large cockpit table and a beautiful relaxation area. The generous winches and the powerful electric winch will facilitate your maneuvers. We love the well proportioned interior very much and the spacious cabins of the Sun Odyssey 54 DS which give an impression of space, light and volume. It is a sailboat adapted to the sea, aboard which you can fully enjoy the high or coastal cruises. Advantages: panoramic roof; navigation area; Spacious cabins.
