VERY EQUIPPED FOR FISHING //SONAR, ROD HOLDER, MIN KOTA ENGINE WITH TERROVA BT SUPPORT 80 Lbs 152 cm UNDER GUARANTEE WITH 24 V LITHIUM BATTERY

WATER LAUNCHING OR STORAGE TRAILER.

This HD series RIB is built to the highest quality standards.

The reinforced V-shaped hull offers very efficient passage at sea, its "Unsinkable" design offers all the guarantees of safety at sea for a RIB.

Its floats shaped using the thermowelding method (assembly without the use of glue and therefore without taking off) with high-end TRITEX fabric. The Leaffield brand valves used are also very high-end and ensure 100% perfect sealing. Pressure relief valves are also fitted to the floats. A very spacious deck plan is convertible and modular as desired according to everyone's needs. The deck has a very resistant non-slip coating which will delight divers. Families or fishermen will appreciate the interior depth which offers very reassuring freeboard, particularly for the safety of children at sea.
